

NOAA CRCP Socioeconomic Data Request Form:

This form is to be completed by the individual requesting data from the NOAA CRCP Socioeconomic Database and returned to the member of the CRCP/NCRMP Social Science Team who delivered it.

Jurisdiction of Interest: Hawaii

Jurisdiction of Interest Scale: County or Island is county is not available

Main Purpose: In one or two sentences, provide the main purpose of the work:
To be used in the Hawaii Ocean Health Index in the recreation goal.

Scope of Work:

In bulleted format, provide a general outline for the expected scope of work that will include the requested data. Please be specific as possible about each component of the work for which you intend to use the requested data:

The information will be used to develop the recreation goal component of the Hawaii Ocean Health Index. The information will be summarized by county level to estimate the % of residents of each county in Hawaii that engage in recreational activities. The recreation goal is one of ten goals of the Ocean Health Index which is used to provide context on the status of our ocean and the benefits that we receive from the ocean and coastal areas of Hawaii.
